Awning Model #	6	7	8	9
Drop	20.5"	26"	29.5"	36.5"
Projection	30"	32"	35"	38"

MEASURING & ORDERING

INFORMATION

Complete Order Information section below using steps 1 through 3.

Step 1

Awning Model Numbers 6 through 9: Measure window height (A) use chart to determine height model number. Casement awnings require a minimum of 6" above window for mounting. Windows opening more than 18" will require additional mounting space.

Step 2

Awning Width: If mounting on casing, measure outside width of window casing (B). For wall mount, select any desired width, allow 1" on each side for mounting hardware. Arms cannot be mounted on shutters.

Custom widths up to 180" in 1" increments.

Step 3

Color/Pattern Choice: Select the color(s) and pattern that best compliments your home. The awning may be ordered in a solid color or stripe pattern. Sidewings on 4500 available in solid colors only.

Special orders are not returnable. Verify all information before ordering.
