

CLEANING/MAINTENANCE

CLEANING/MAINTENANCE INSTRUCTIONS

1. Turn the air purifier off and unplug it before cleaning.
2. The outside of the air purifier can be cleaned with a soft, clean damp cloth.
3. The filtered air outlet on the top of the unit can be cleaned of dust with a small, soft brush.
4. If you wish to clean the inside of the air purifier, please remove filters and only use a dry, soft cloth to wipe it down.
5. DO NOT wash filters.

WARNING: Do not allow moisture to come in contact with the main housing of the air purifier.

TROUBLESHOOTING

PROBLEM	SOLUTION
Unit will not operate	<ul style="list-style-type: none">• Check to make sure the unit is plugged in.• If the door is ajar the unit will not operate. Make sure the filters are properly installed and firmly close the door.• Check to make sure the unit is on by turning the knob or pressing the speed button.
Decreased air flow	<ul style="list-style-type: none">• If the Filter Life Indicator is red, the HEPA filters need to be changed.• If the filters have not been changed in a year or more, change the HEPA filters.• Check to ensure nothing is blocking air inlet and filtered air outlet.• Ensure carbon filters are changed every 3-6 months.

FIVE (5) YEAR LIMITED WARRANTY

SAVE THIS WARRANTY INFORMATION

- A. The quality controls used in the manufacture of this product are to ensure your satisfaction.
- B. This Warranty applies only to the original purchaser of this product.
- C. This Warranty applies ONLY to repair or replacement of any supplied or manufactured parts of this product that, upon inspection by The Holmes Group, Inc., authorized personnel, proves to have failed in normal use due to defects in material or workmanship. The Holmes Group will determine whether to repair or replace the unit. This Warranty does not apply to installation expenses.
- D. Operating this unit under conditions other than those recommended or at voltages other than the voltage indicated on the unit, or attempting to service or modify the unit, will render this WARRANTY VOID.
- E. Unless otherwise prescribed by law, The Holmes Group shall not be liable for any personal injury, property or any incidental or consequential damages of any kind (including water damage) resulting from malfunctions, defects, misuse, improper installation or alteration of this product. **SOME STATES DO NOT ALLOW THE EXCLUSION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU.**
- F. All parts of this product are guaranteed for a period of 5 year as follows:
 1. Within the first 30 days from date of purchase, the store from which you purchased your product should replace this product if it is defective in material or workmanship (provided the store has in-stock replacement.)
 2. Within the first sixty months from date of purchase, subject to the conditions in paragraph H, The Holmes Group will repair or replace the product if it is defective in material or workmanship providing it is returned to The Holmes Group, freight prepaid, with PROOF OF PURCHASE date, together with \$10.00 for handling and return packing/shipping charges.
- G. If you have any problem with this product, please write our Consumer Service Department.
- H. **IMPORTANT Return INSTRUCTIONS** Your Warranty depends on your following these instructions if you are returning the unit more than 30 days after the date of purchase:
 1. Carefully pack the item in its original carton or other suitable box to avoid damage in shipping.
 2. Before packing your unit for return; be sure to enclose:
 - a) your name, full address with zip code and telephone number,
 - b) a dated sales receipt or PROOF OF PURCHASE,
 - c) your \$10.00 check for return packaging, and
 - d) the model number of the unit and the problem you are having. (Enclose in an envelope and tape directly to the unit before the box is sealed.)
 3. The Holmes Group recommends you insure the package (as damage in shipment is not covered by your Warranty).
 4. All shipping charges must be prepaid by you (as noted in paragraph F).
 5. Mark the outside of your package:

FEATURES - OPERATIONS

PLEASE READ AND SAVE THESE IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons, including the following:

1. Read all instructions before using appliance.
2. To avoid fire and shock hazard, plug the appliance directly into a 120V AC electrical outlet.
3. If the filter is covered by a bag when shipped: remove plastic bag over filter before use.
4. Keep the cord out of heavy traffic areas. To avoid fire hazard NEVER put the cord under rugs, near heat registers, radiators, stoves or heaters.
5. To protect against electrical hazards DO NOT immerse in water or other liquids. Do not use near water.
6. Close supervision is necessary when any appliance is used by, or near children or by disabled persons.
7. Always unplug the air purifier before moving it, opening the grill, changing the filters or whenever the air purifier is not in use. Be sure to pull by the plug and not the cord.
8. NEVER drop or insert any object into any openings.
9. Do not operate any appliance with a damaged cord or plug, if motor fan fails to rotate, after the appliance malfunctions, or if it has been dropped or damaged in any manner. Return appliance to manufacturer for examination, electrical or mechanical adjustment or repair.
10. Use appliance only for the intended household use as described in this manual. Any other use not recommended by the manufacturer may cause fire, electric shock or injury to persons. The use of attachments not recommended or sold by the Holmes Group may cause hazards.
11. Do not use outdoors.
12. Never block the air openings, or place on soft surface, such as bed or sofa, as this could cause the unit to tip over thus blocking the air intake opening.
13. Keep unit away from heated surfaces and open flames.
14. DO NOT attempt to repair or adjust any electrical or mechanical functions on this unit. Doing so will void your Warranty. The inside of the unit contains no user serviceable parts. All servicing should be performed by qualified personnel only.
15. WARNING: To reduce the risk of fire or electrical shock, DO NOT use this air purifier with any solid-state speed control device.
16. DO NOT place anything on top of the unit.

CORD AND PLUG INSTALLATION SAFETY INSTRUCTIONS

The length of cord used on this appliance was selected to reduce the hazards of becoming tangled in, or tripping over a longer cord. If a longer cord is necessary an approved extension cord may be used. The electrical rating of the extension cord must be equal to or greater than the rating of the air purifier. Care must be taken to arrange the extension cord so that it will not drape over the countertop or table-top where it can be pulled on by children or accidentally tripped over.

PLEASE READ AND SAVE THESE IMPORTANT SAFETY INSTRUCTIONS

Congratulations on your purchase of an Air Purifier. Your Air Purifier has an attractive stylish design. Its versatility and quiet operation make this unit perfect for both the home and the office.

Harmony® BACKGROUND

First, thank you for choosing a Holmes Harmony® Air Purifier. The Harmony® Air Purifier was created because consumers, like you, provided a lot of feedback about what you wanted in an air purifier. With the features consumers want in mind, we worked with sound experts and engineers to make the unit quieter and smaller, with more advanced technologies. We designed a patented modular filter system for easier filter replacement. The result is an air purifier that is in harmony with your environment—it cleans your air and fits your life.

FEATURES

Dual Position- the air purifier can stand upright or lie on its side.

Also designed to fit with its back flush against the wall. When positioning the unit, please be sure the air inlet grill, filters and air outlet are not blocked to ensure maximum airflow.

Equipped with GE motor for quieter performance and the added durability necessary for continuous use.

Filter Life Indicator- The Filter Life Indicator uses a series of lights to give you an indication of the remaining filter life. When the filters are new and in good condition, the top light will be illuminated green. As the filter life progresses, the Filter Life Indicator will move to yellow. At this point, the carbon and HEPA filters should be checked. When the Filter Life Indicator light is red, it is time to change the filters. (On the HAP675SRC, there are 2 filter indicator lights. The first light will be in amber color when the filter is in new or good condition. Over a period of time, the filter performance will begin to decrease. At this point, the second light will become red.)

Remote Control/Push Button Controls (For HAP675SRC only)

This unit offers a remote control for convenient operation from anywhere within your room. The push button control area also allows for easy operation. The HAP675SRC can be controlled/operated by either the remote control handset or the manual push buttons on the unit. The remote control has 5 buttons — 4 speeds settings and power off. The remote control requires 2 AAA batteries.

BATTERY WARNING:

- DO NOT mix old and new batteries.
- DO NOT mix alkaline, standard (carbon-zinc), or rechargeable (nickel-cadmium) batteries.

PRE-OPERATING INSTRUCTIONS

NOTE: The door should not be opened when the unit is on its side.

1. After removing the unit from the box, take the plastic covering off the unit and properly dispose of it.
2. Place unit with air intake grill pointing up.
3. Open the door of the air purifier.
4. The carbon filters, which are packed in a plastic bag in the box, should be removed from plastic bag and then placed on each of the HEPA filters. The plastic tabs on the HEPA filter will hold the carbon in place (see Figure 1).
5. Close the air purifier door by pushing firmly against the right hand side of the door.

OPERATING INSTRUCTIONS

1. Select location where air intake grill and filtered air outlet are not obstructed.
2. Plug into a 120V AC electrical outlet.
3. The air purifier is now ready for use. Set the air purifier to the desired speed setting: High (IIII), Medium (III), Low (II) or Sleep (I) by turning the speed control knob. (On the HAP675SRC, you will need to press the ON/OFF button to turn the unit on. ON will automatically cycle to the highest setting. Use the speed button to set the desired speed: High (IIII), Medium (III), Low (II) or Sleep (I).)

For continuous use, it's recommended to operate the air purifier at the MEDIUM setting. For quieter operation or use in a bedroom, select the LOW setting. When high levels of air pollution are present, select the HIGH setting to quickly circulate and filter the room air.

FEATURES - OPERATIONS

FILTER REPLACEMENT INSTRUCTIONS

1. On average, HEPA filters need to be replaced every 12-18 months. Carbon filters need to be replaced every 3-6 months. Filter life will vary depending on air quality and usage.
2. Turn off and unplug the air purifier before attempting to replace the filters.
3. Remove each of the filters from the unit by pulling gently towards you.
4. To replace the carbon filter, simply remove the old carbon filter and insert a new carbon in its place, using the plastic tabs as a guideline (see Figure 1).
5. To replace the HEPA filter, discard the old HEPA filters. DO NOT attempt to clean. Put the carbon filter back on the new HEPA filter. Insert the new HAP600 HEPA filter into the unit, by sliding it onto the hang tabs. (see Figure 2)
6. After replacing the HEPA filters, RESET the Filter Life Indicator by inserting a small object (such as a pin or paper clip) into the hole below the red filter change light marked RESET

REPLACEMENT FILTERS ARE AS FOLLOWS:

HAP600 HEPA Filter

HAP600D HEPA Filter (2 pack)

HAP60 Carbon Filter

These filters can be purchased at a retailer near you or by calling 1-800-5-HOLMES.

NOTE: Carbon and HEPA Filters are not washable and should be replaced at the recommended intervals.
