# FRIGIDAIRE.

# Packaged Terminal Air Conditioner (PTAC) FFRP072LT5

## **Signature Features**

## **Corrosion Guard**

A corrosion-resistant fin coating extends operation life and your investment, plus it is easier to maintain in coastal environments.

## **Effortless™ Maintenance**

With Frigidaire's reputation for durability, easy maintenance, availability of reliable parts and service you can count on, you can be sure that you're getting the highest-quality performance.

## **Dry Mode**

Dry Mode feature will help manage and reduce the humidity content within the living space, making it more comfortable.

## SilentDesign™

Sound reduction package.

## Air Conditioner/ Electric Heater

## **Product Dimensions**

16″
42"
21-3/4"

## More Easy-To-Use Features

#### **Comfort Control Design**

Simple controls allow guests to customize their settings, while quiet, uniform air movement keeps rooms comfortable.

#### Smart Self-Check

Provides nine diagnostic points for selfcheck and correction of fault conditions.

#### Eco-Friendly

Frigidaire<sup>®</sup> uses R-410A refrigerant that's not harmful to the earth's ozone layer and meets U.S. Environmental Protection Agency requirements.

#### Effortless<sup>™</sup> Operation

Simple, intuitive room controls are easy for guests to operate — ensuring a relaxing, more comfortable stay. Features like Effortless™ Restart and Ready-Select\* controls reduce maintenance calls.

#### **PTAC Specifications**

- Product Shipping Weight (approx.) 128 Lbs.
- An electrical supply with grounded three-prong receptacle is required. The power supply circuit must be installed in accordance with current edition of National Electrical Code (ANSI/NFPA 70) and local codes & ordinances.
- Voltage Rating 265V/60 Hz
- Amps @ 265V Volts = (Cool) 2.4 Amps/(Electric Heater) 9.3 Amps
- Always consult local and national electric codes.
- Recommended Circuit Breaker 15 Amps
- Unit equipped with 265V 3-wire power supply cord, NEMA plug type 7-15P, approximately 28" long.
- In order for condensate water to drain properly inside the unit, the sleeve must be installed properly: Level from right to left with a slight 1/4" rearward pitch from the indoor side to the outdoor side as shown in the illustration above. Refer to the Installation Instructions on the web.
- The drain kit listed on the Frigidaire® PTAC Accessories page can be used for an internal or external drain. This applies to new and replacement installation.

#### **New Installation**

- For new installation, Frigidaire® PTAC Sleeves are available and recommended for proper installation. See accessories pages for sleeve options.\*
- Standard PTAC installation requires 13-1/2" maximum wall thickness, unless a wall sleeve is used.
- If the PTAC unit protrudes more than 4", then it is suggested that it be installed with a subbase. See accessories pages for subbase options.

#### **FRIGID**AIRE

USA • 10200 David Taylor Drive • Charlotte, NC 28262 • 1-800-FRIGIDAIRE • frigidaire.com CANADA • 5855 Terry Fox Way • Mississauga, ON L5V 3E4 • 1-800-265-8352 • frigidaire.ca

FFRP072LT5 01/17

- Installation Guide on web to identify existing wall-sleeve manufacturer and size compatibility. If proper installation and slope are suspect, then correct installation of Frigidaire® PTAC Sleeve options recommended.
- For any sleeve retrofit application, be sure that the foam seals (factory-installed on the tube sheets) provide a good seal between the grille and the outdoor coil tube sheets. These foam seals provide a barrier that stops air from the inside mixing with air on the outside (known as air recirculation).
- Using Frigidaire® wall sleeve with Non-Frigidaire grille requires installation of an Accessory Baffle Kit, which ensures a good seal between the unit and exterior grille to prevent air recirculation. Air recirculation is a large contributor to performance loss and premature damage to major components.

#### Note: For planning purposes only. Refer to Product Installation Guide on the web at frigidaire.com for detailed instructions.

\*See Frigidaire\* PTAC accessories pages attached for optional accessories.

# Packaged Terminal Air Conditioner (PTAC)

## ACCESSORIES

# FRIGIDAIRE.

**Condensation Universal Drain Kit** 

## Wall Sleeves and Drain Kit

## **Metal Wall Sleeve & Accessories**

5304482701 Steel Sleeve - Insulated 5304483759 16" Extended Sleeve - Insulated 5308815304 18" Extended Sleeve - Insulated 5308815305 24" Extended Sleeve - Insulated 5304483760 3" Sleeve Adapter

These fully insulated sleeves are made of electro-galvanized steel that resists corrosion, and welded areas are sealed with a rust preventive. White powder coating matches PTAC units. Sliding keyhole grille attachments enable easy, one-person installation from the inside.

## **Polymer Wall Sleeve**

#### 5308815302 Insulated

Utilizes fiberglass-reinforced polyester compound to produce a durable, noncorrosive wall case that provides superior sound absorption, reduces heat loss and prevents sleeve sweating. (Requires use of a Polymer Architectural Grille.)

## **Condensation Universal Drain Kit**

#### 5304480570 1-Pack

Controls condensate from the PTAC unit and can be used for exterior or interior drain systems. Includes 1/2" O.D. copper drain tubes with a short right angle tube and a 6" straight tube to suit the application. (Recommended for all new sleeve installations.)

## **Outdoor Grilles**

## **Stamped Aluminum Outdoor Grille**

5304480557 Clear Anodized Aluminum Finish

Cost-effective, one-piece stamped grille is made from durable anodized aluminum. The grille is lightweight, has a clear finish and is easy to install from inside the room.

## **Architectural Aluminum Outdoor Grilles**

5304480558 Clear Anodized Aluminum Finish 5308815313 Dark Brown 530448055X Customized Color

Enhances the appearance of any building. Made of a durable, anodized aluminum that offers weather resistance. Sliding keyhole attachment enables easy installation onto Frigidaire<sup>®</sup> metal wall sleeve.

## **Polymer Architectural Outdoor Grilles**

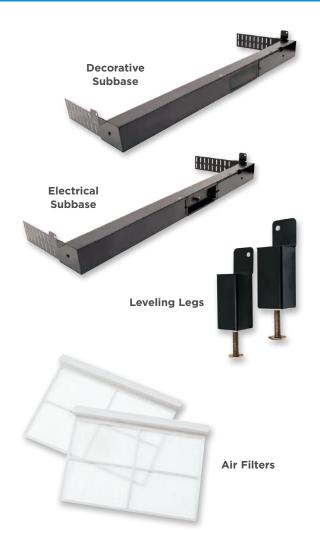

**5308815310** Brown **5308815312** Alpine Beige

Blends with most building exteriors. Its durable design offers protection, has an enhanced appearance and provides superior weather resistance. (Requires use of a Polymer Wall Sleeve.)

### Wall Thermostats

FFTSTATWL

5304483050

## Subbases and Leveling Legs

## **Decorative Subbase**

#### 5308815315 Black

Made of heavy-gauge steel to provide support for the wall sleeve, the subbase mounts directly to the wall sleeve and has adjustable leveling legs.

## **Black Electrical Subbases**

5304482886230V/15A5304482891265V/30A5304482888230V/30A5304482890265V/20A5304482887230V/20A

5304482698 265V Subbase Disconnect Switch 5304490211 Hardwire Kit, Conduit and Plate (For 230V and 265V)

Offers the same features as the decorative subbase, plus a factory-installed electrical junction box containing a receptacle for corded PTAC units.

## **Leveling Legs**

### 5304480575

Attach easily to the wall sleeve and offer accurate leveling and support for units without a subbase. Adjustable from 3-1/4" to 5-1/2".

## Air Filters

## **Air Filters**

## 5304482892 10-Pack

Changing filters periodically ensures a healthy room environment, proper airflow, temperature control and energy efficiency.

## Wall Thermostats

## Wireless Digital Wall Thermostat

**FFTSTATWL** Non-Programmable (Includes Wireless Receiver) Allows control without having to worry about wiring. Easy to install and use. Large intuitive LCD screen improves user interaction.

## Wired Digital Wall Thermostats

**5304482700** Programmable **5304483050** Non-Programmable Offers auto-changeover, 2-stage heating and cooling, as well as emergency heating mode for heat pump.

## Laminated Insert

#### FPTAC0511

Informs guests that unit is controlled by wall thermostat.

## Miscellaneous

## Lateral Duct Kit

### 5304490206

Allows one PTAC unit to heat or cool two rooms. Kit mounts to wall sleeve and can be installed for either right- or left-side duct applications.

## **Baffle Kit**

## 5304484585

Baffle Kit for use on non-standard grilles.
