

SmartView PLATFORM

The SmartView Platform positions the centrifuge to better display the rotor chamber. This offers healthcare professionals a clear view of the loading and unloading of specimens. With the SmartView Platform, centrifuges can easily be monitored from across the lab.

SmartView

PLATFORM

HORIZON 600 SERIES WITH STAND AND WITHOUT

Ideal For:

MOBILE HEALTH

PHYSICIAN'S OFFICES
& RESEARCH LABS

- Centrifuges fit snugly into the SmartView platform.
- Four rubber feet secure the platform and quiet vibrations.
- Facilitates viewing in cramped settings, e.g. under counter, in car for visiting nurses...
- Leaves centrifugation unaffected as centrifugal forces act on the axis of the tubes.
- Compatible with models 614, 642 series.
- Fits many other nameplate centrifuges such as LabCorp, Quest Diagnostics, DaVita, etc.
